## Are you a disabled veteran looking for an exciting adaptive sport?

Para-Driving is an internationally-recognized and governed, elite equestrian sport. "Para" refers to parallel to able-bodied sports, designed for the independent athlete with permanent, physical and visual disabilities seeking a competitive track. Para-Driving operates under the same basic rules as Combined Driving but places competitors in various grades based on their functional abilities.

**Come learn more about this unique sport opportunity.**

Carlisle Academy, in partnership with the United States Equestrian Federation, was recently awarded an Adaptive Sports Grant from the Department of Veterans Affairs to support growth and participation of disabled veterans in para-equestrian sports.

Veterans can observe or take the reins at this demonstration. Support drivers are in the carriage while participants learn how to maneuver through a cones course.

Full tuition support for veterans is available. Eligibility requirements apply.
