Our apprentice program is a service-learning opportunity for people who would like to give their time to support people with both physical and mental health issues within our program. Apprentices are rewarded by giving to others and receiving ongoing education and training to maximize their experience. Our apprenticeship programs have three tiers providing apprentices with the opportunity to learn and grow.

An **apprentice training** will be offered once before our spring session and once before our fall session. These trainings provide the knowledge and skills needed to effectively work in our apprentice program.

An **apprentice social** will be offered once during the spring session and once during the fall session. Apprentice socials offer opportunity for our apprentices and staff to gather together to get to know each other outside of the arena as well as some continuing education.
