Auditors: \$20

Special Evening Lecture
Monday, July 1 at 6pm
Mette and Megan Assouline

*Mother-Daughter Highlights of International Competition on
the Danish Team & UK Young Rider Team*

Based in the UK, Mette is a well-respected, successful dressage trainer, competitor, and judge on the national and international circuit. She shows exceptional talent in dressage training, in producing young dressage horses up to Grand Prix, and has a great feel in equine psychology. Mette has ridden since early childhood, but started her international career as a successful dressage rider qualifying her horse Question for the Danish Team. With her most successful horse, the Swedish bred Ilon she represented Denmark at the Aachen CDIO in Germany, also achieving many wins at CDI and CDIO Grand Prix level in Holland, Germany and France. Mette works with both able-bodied and para-equestrian dressage riders and takes great pride and pleasure in supplying suitable horses and matching the right combinations. Numerous successful combinations have been matched over the years, but 2016 was special counting three horses representing the UK at the Rio Olympic and Paralympic Games.

Mette is married to Michel Assouline, USEF Head Coach for the US Para-Dressage Team and frequent clinician at Carlisle Academy, a USEF Center of Excellence in Para-Equestrian Dressage.
