### *Stewarding animals, farm, and nature*

At Farm Camp, children can immerse themselves in a sensory-rich educational experience surrounded by opportunities that naturally happen on the farm. Participants gain an appreciation for the natural world and learning the importance of being good stewards of the land and animals. Learning modules provide hands-on experiences incorporating valuable life skills such as cooperation, self-care, awareness of self and others, and problem-solving.

*The program is taught by  
credentialed Carlisle Academy staff,  
naturalists, and master gardeners.*
